The installation of our new Master is the highlight, and the start, of our Livery year. The evening commences with the formal installation of the new Master, Wardens and Court Assistants and the celebrations completed with a sumptuous Livery dinner, good fellowship and entertaining speakers and the Loving Cup.

Denise Fellows: our new Master is a founder Liveryman who has served on many of our committees and is particularly involved with ProBono work and the Centre for Management Consulting Excellence (CMCE). She was heavily involved for many years with the development of the Cass Centre for Charity Effectiveness (Cass CCE). After a background in high tech and the early days of the internet, she now works part-time with the Honorary Treasurers Forum, is trustee for a number of charities and a Tertiary Franciscan.

Henry Stewart: our speaker for the evening defines himself as the Founder and Chief Happiness Officer of Happy Ltd. He is the author of Happy Manifesto, which was shortlisted for the CMI business book of the year and listed in the Guru Radar of the Thinkers50 list of the top 50 business thinkers world-wide. Henry speaks from experience: Happy was rated in the top 20 workplaces in the UK for five successive years (Financial Times / Great Place to Work institute).

Butchers' Hall: Butchers Company is one of the oldest, tracing their roots back to 975AD but still at the heart of one of the country's biggest and most important trades, the latter at least shared with our modern and vibrant Livery company. The hall (renowned for its Wednesday Carvery lunches) has been closed for over four years, as part of a major redevelopment programme in the Smithfield area, so we are

delighted to be holding our dinner in the Great Hall and having the opportunity to admire the newly refurbished building.

Do come and join our Freemen and Liverymen in celebrating one of the most important events in our Livery Year: [Please click on this link](#)
